SPECIAL EDITION FY97 SAB Membership

Vol. E2 No. 3a
March, 1997

This special edition of "HAPPENINGS at the Science Advisory Board" announces Deputy Administrator Fred Hansen's decisions on SAB membership for FY97. Membership appointments to the SAB are for 2-year terms. The normal tour of duty on the SAB is 4 or 6 years.

Below you will find the roster of each of the SAB Committees for FY97. New appointments are indicated by an asterisk(*). Reappointments are indicated by a cross(+); and change in status by a circle(o). Members whose status has changed have been converted from consultant to member, changed committees, or have changed position within a committee.

Also listed are the names of those members who have completed their tour of duty on the Board and now move into the ranks of Consultants, and who may be called upon in the future to again share their expertise on specific issues.

We extend a warm welcome to those who join us, abiding gratitude to those whose service continues, and special appreciation to those whose completed service has served the cause of environmental protection so well.

Donald G. Barnes, PhD
SAB Staff Director

OUTGOING MEMBERS

We want to acknowledge those SABers who have served their tours of duty on the Science Advisory Board and are turning over the reins to the next crop of advisors. Please join us in sending them a very special and heartfelt "Thanks for a job well done!"
